"EQUINOINT"

The Scientific Remedy for Lameness in Horses.

No More Firing!

There are no Curative Properties in a - - RED-HOT IRON.

"EQUINOINT."

"Equinoint" causes no pain.

"Equinoint" leaves no blemish.

"Equinoint" cures by absorption.

"Equinoint" is as easily applied as paint.

"Equinoint" removes the Enlargement, and you can work the horse all the time.

"Equinoint" will cure the worst case of Sprung Tendon, Bog Spavin, Curb, Splint, Thoroughpin, Windgalls, Sprung Hock, or any other Joint or Bursal Enlargement.

"Equinoint" will produce excellent results while the horse is running out, for he will not bite at it, and flies shun it.

Reduced Facsimile of 18-oz. Tin.

Price **10/6** per Tin

CASH WITH ORDER.

To be obtained from all Chemists and Saddlers, or from

EQUINOINT, Ltd., Birtley, Co. Durham.

Telegraphic Address: "DISINFECT, BIRTLEY."

"EQUINOINT"

V.

THE FIRING IRON

"Equinoint" has now become the recognised substitute for the unnatural and painful practice of Firing, and the expert opinion of prominent Horse Owners in all parts of the world is overwhelmingly in favour of the "Equinoint" treatment, when legs give trouble in any way.

"Equinoint," which is manufactured in England by the Proprietors, is unapproached by any other preparation in its marvellous curative properties, especially in deep-seated cases.

****

The following remarkable letters from prominent Horse Owners, Trainers, Masters of Hounds, etc., prove that it is precisely all that we claim it to be.

"Equinoint" efficacious for Sidebone and Enlarged Joint.

Witherley Hall,
Atherstone,
24/11/10.

Dear Sirs,

I have used "EQUINOINT" on two horses for sidebone and for enlarged joint with lameness in both cases, with a cart horse and a hunter, and in both cases it appeared to me to be very efficacious.

Yours faithfully,
STANLEY CHAMBERLAYNE.

"Equinoint" Cured very bad Capped Hock.

The Royal West End Riding School,
70, Seymour Place,
Bryanston Square, London, W.,
October 4th, 1909.

Dear Sirs,

The tins of "EQUINOINT" I got from you gave every satisfaction in a case of **a very bad capped hock,** when every remedy had failed. I am recommending same to my friends.

Yours faithfully,
FRANK G. HAINES.

"Equinoint" Makes Winners.

The Dairy, Mallusk,
May 28th, 1909.

Dear Sirs,

Kindly send me another tin of "EQUINOINT," for which I enclose 10/6 P.O.

The last tin I got from you did marvellously well. As you will see I won the above race with Mallusk, and I attribute my success chiefly to the use of "EQUINOINT." In future I do not intend to be without a tin of it. I am using it at present on a horse I got fired about two years ago for broken-down tendons. I believe I will have his legs as fine as ever with a few more applications. I have persuaded several of my friends to try it. They are also surprised at the results.

Wishing your "EQUINOINT" every success,

Yours truly,
JOHN BARRON.

Other Absorbent Blisters Failed.

Brize, Claremorris,
Ireland,
25/1/09.

Dear Sirs,

I have tried your "EQUINOINT" on horses for "splints," and also on strained sinews and big knees, which other **Absorbent Blisters had failed to get down.** It did first-rate, and I **worked the horse all the time while using it.**

Yours truly,
J. COGHLAN.

"EQUINOINT" for Splints & Capped Hocks.

Convincing Evidence from a Well-known Fox Hunter.

Oak Cottage, Whitchurch,
Salop,
21/10/09.

Sirs,

The "EQUINOINT" I used for Sprung Sinews, Splints, and Curbs, **answered first-rate,** and gave entire satisfaction. I consider it the best stuff I have ever used. No trouble with cradles on Horses, and it does not cause the legs to swell. I used the Horses all the time the stuff was being applied.

Yours truly,
Colonel C. RIVERS V. BULKELEY, C.B.

From an Irish Stud Farm. Marvellous Results from "Equinoint."

Derryboy Stud Farm,
Crossgar, Co. Down,
11th Nov., 1909.

Gentlemen,

Your "EQUINOINT" ABSORBENT has **worked wonders for me.** I tried it on two animals and am pleased to say that both are sound now. One was a broken-down Polo Pony that was actually on the way to the Knacker as useless, and **one tin of "EQUINOINT" has made her legs perfectly sound again.** The other was a Cart Horse with strained tendons (hind legs)—your treatment has made him as good as ever he was.

Yours truly,
THOMAS LINDSAY.

From a Prominent Trainer.

Chitterne Lodge, Chitterne,
March 4th, 1909.

Dear Sirs,

In answer to your letter of the 2nd inst., I think the "EQUINOINT" **is a very good preparation as an Absorbent,** and shall be obliged if you will send me another tin.

Yours faithfully,
R. J. FARQUHARSON.

WONDERFUL!

Crowcombe, Taunton,
21/9/10.

Dear Sirs,

I have pleasure in enclosing a cheque in payment of account. **The "EQUINOINT" treatment is wonderful,** and has cured a horse completely of an incipient splint which has resisted every other treatment, and, after one course of treatment, the lameness completely disappeared.

Yours faithfully,
Captain J. A. C. HAMILTON.

You can work the Horse all the time.

From SIR GERALD W. R. CODRINGTON, Bart.

"Harness Mare useless 2 years, now Sound and Strong."

The Old Hundred,
Tormarton, Badminton,
June 13th, 1910.

Dear Sirs,

I used your "EQUINOINT" three months ago on the hind fetlock joint of a Harness Mare with **much success.** She had been badly lame for two years and useless, and I had turned her out to grass for 10 months. However, after the "EQUINOINT" treatment, she came up quite **sound and strong** on the joint, and was able to resume her regular harness work.

I am,
Yours faithfully,
SIR GERALD W. R. CODRINGTON.

Spring Park,
Shirley, Nr. Croydon,
15/11/10.

Dear Sirs,

I have great pleasure in sending you my testimony about "EQUINOINT." It has done wonders for my horse. After ten weeks of rest and blistering treatment (under my Veterinary Surgeon's advice) it was still as lame, and as a counsel of despair I was told to work it gently. Then I heard of your "EQUINOINT," and tried it. After ten days I found the lameness gone, and tried to work the horse gently, gradually increasing the amount of strain, and was glad to find all lameness gone. I cannot help putting it down to your "EQUINOINT," and shall use it again instead of blistering.

Yours truly,
T. G. LITCHFIELD.

Shelling Hall,
Harlow, Essex,
June 14th, 1910.

Dear Sirs,

In reply to your letter, I used your "EQUINOINT" on one of my Hunters, which had a sprained tendon, and found it most excellent.

Yours truly,
GUY GILBEY.

Messrs. Davis, Goodall & Co.

"EQUINOINT" CURES

From a Veteran Huntsman, Will Dale.

The Kennels,
Badminton, R.S.O., Glos.

Dear Sirs,

I have used the "EQUINOINT" as supplied by you in several cases, and find it an excellent remedy in hounds for stiffened joints, and serious cases of old strains and enlarged hocks or elbows or anything of the sort requiring a good sweating.

I am, yours faithfully,
WM. DALE,
Huntsman to the Duke of Beaufort.

A Well-known English Trainer.

Knotty Green,
Beaconsfield,
Dec. 7th, 1910.

Dear Sirs,

I have pleasure in informing you that I have used "EQUINOINT" on a Hunter with a bad splint on the tendon, from which he was very lame. The horse is now sound after one course, and I consider the application very successful.

Yours truly,
GEO. R. WHEELER.

More Irish Evidence.
"Equinoint" the best Absorbent Blister ever used.

The Commons Stud, Cashel,
Sept. 10th, 1909.

Dear Sirs,

Your "EQUINOINT" I consider a most marvellous preparation. I had a splendid success on a concussion, and also a case of sprung hock. I have tried many blisters, but "EQUINOINT" is the best I have ever used. I will tell my friends all about it.

Yours truly,
J. DWYER, Trainer.

From the Master of the New Forest Hunt.

Langley Manor, Totton, Hants,
19/8/10.

Dear Sirs,

I enclose you money for "EQUINOINT." **It has done wonders in a horse of mine,** which had a bad bowed tendon. I had given up hoping to do any more work with him, and he has done Hound exercise and been out Cub-hunting, and his leg is still comparatively fine.

Yours faithfully,
W. de P. CAZENOVE.

Hadlow House, Hadlow Down,
Near Uckfield, Sussex,
Oct. 24th, 1909.

Dear Sirs,

In reply to your enquiry re "EQUINOINT," I beg to state that it has given me complete satisfaction.

I used it for a capped elbow, in which case the swelling was quite removed. I also used it for windgalls with equal success.

Yours faithfully,
T. J. G. DUNCANSON.

Green's Norton Hall, Towcester,
22/11/10.

CAPT. REGINALD CHAPLIN has pleasure in stating that the "EQUINOINT" which he ordered from you proved entirely satisfactory in every way, and he will never be without it in the stable in the future

Mr. Goby, the well-known Trainer and Dealer in Bloodstock, says:

Badminton, Epsom,
Oct. 28th, 1909.

Dear Sirs,

I can honestly say that "EQUINOINT" is the best Absorbent I have ever used.

I tried it in "King's Tax" for Incipient Splints, which since using have **completely disappeared.**

Yours faithfully,
F. G. GOBY.

Evidence from Abroad.

CANADA.

A Prominent Canadian Horse Owner, A. O. Beardmore, Esq., Toronto, says:

I am very pleased indeed to testify to the "effectiveness" of "**EQUINOINT,**" which has reduced the swelling on the legs of my Polo Ponies, and my groom says it will cure them.

MALTA.

The experience of Mr. De Piro, Trainer, Malta.

St. George's Stables,
Marsa, Malta.

Dear Sirs,

I used your "**EQUINOINT**" for Splints and Capped Hock with much success. I worked the Horses all the time while using it. Kindly send other six tins for which I enclose P.O.

Yours faithfully,
A. M. De PIRO.

GERMANY.

Entire Satisfaction.

Alsterufer 2,
Hamburg, 36,
January 13th, 1911.

Gentlemen,

I beg to send the enclosed Cheque for £1 11s. 6d. for the three tins of "**EQUINOINT**" you sent my trainer, W. Lomax. I have used your "**EQUINOINT**" since last year and it is giving **entire satisfaction.**

Yours faithfully,
H. WENCKE.

"EQUINOINT"

THE SCIENTIFIC REMEDY FOR LAMENESS IN HORSES

NO MORE FIRING!
